Budget Season - From your School Board

School Board Role

The Board of Education acts as a whole, not as seven individuals, to ensure the success of every child through clear, concise direction to the superintendent as well as rigorous monitoring to ensure accountability. The board charges the superintendent to focus every staff member and all resources toward a single goal - student achievement. The superintendent receives direction from the board and authorizes the staff to implement practices, programs and activities that will provide the best education possible. This approach allows the Board to focus its time and energy on facilitating a successful school district.

Board Mission

The mission of the Howard-Suamico School District Board of Education is to enact policies and allocate resources to develop all students' full academic potential and to promote their social and emotional growth.
