American Education Week—November 14-18, 2016.

This week presents all Americans with a wonderful opportunity to celebrate public education and honor individuals who are making a difference in ensuring that every child receives a quality education.

As we celebrate education in Howard-Suamico, your actions and attitudes are proof positive that education is a powerful force. A student's world is changed through learning. It is not limited, however, to a few subjects or simply "knowing" material. It transcends a grade on a paper, an answer on a quiz or a letter on a report card. When knowledge influences a student to think deeply about whom they are - and their personal responsibility as part of a larger community - we all benefit. When education does this, it becomes a catalyst for positive transformation.

Green Bay and through other community programs throughout Brown County that serve at-risk youth and promote year-round reading. **You can help!** Needed are new, **unwrapped** books for children – babies through age 18. There will be boxes set up in the main hallway to put donated books in. Thank you for your support of this worthwhile cause!

Speak Up 2016

The Speak Up Research Project polls K-12 students, parents and educators about the role of technology for learning in and out of school and represents the largest collection of authentic, unfiltered stakeholder voice on digital learning.

Since 2003, more than 4.5 million participants have shared their views and ideas through Speak Up.

Education, business and policy leaders report that they use the data regularly to inform federal, state and local education programs. **The Speak Up 2016 online surveys open October 12, 2016 through December 16, 2016.** Please read more at [Speak Up 2016 Flyer](#).
