

FINGERPRINTS – A Play featuring Young Talent

Fingerprints is a play written and directed by Bay Port High School (IB) International Baccalaureate students Hannah Kitslaar, Courtney Guc and Freddy Quiram. The cast includes forty-six fifth and sixth graders from Lineville Intermediate School. The story is about friendship, individuality and growing up. The plot line features eleven main characters that learn who they are in the face of hardship and how they are leaving their "fingerprints" on the world around them. A great evening event for the whole family **on January 10 at 7:00 p.m.** in the Bay Port High School Performing Arts Center. In lieu of charging admission, they are collecting canned food items at the door to be given to the Giving Tree's local food pantry.
