

Promoting Students, Staff and Community Partners

Follow and like us on Facebook & Twitter at www.hssd.k12.wi.us ! The Howard-Suamico School District Facebook and Twitter features highlights and photos of events, students working on projects, volunteers in the classroom, area business partners working with students, E-Learning and meeting people around the world using technology, the arts, sports, community involvement, etc. Take a moment to visit the Howard-Suamico School District Facebook to see just a few of the stories we have featured. We need your help to share the amazing things happening in our schools and organizations. The best photos are students, teachers and staff in action giving us a peak into the projects they are working on. Please send your photos (art work photos too) and stories to Cheryl Schmidt at cherschm@hssd.k12.wi.us and we will try to feature it on Facebook and possibly in communications with local press.
