

The 2014 Interest Fair is Coming!

It's that time of the year again! All students in kindergarten through fourth grade are encouraged to choose an interest area or hobby that they want to learn more about and begin their 2014 Interest Fair project. This could be an interest they have had for awhile or it could be a hobby that they would like to start. In any case, this project should challenge them to learn something new!

Our Interest Fair is meant to be a learning experience for your child as well as all the students that observe the project in its final form. It is also meant to be a Family Event and families are encouraged to work together during the process. Therefore, students must sign up for the Interest Fair individually; however, siblings are allowed to submit an Interest Fair project together. This fair will not be a competition -- students will be evaluated, *not judged*.

The steps in doing a project for the **Interest Fair on Thursday, April 10th** are:

- ✓ Fill out the Interest Fair Entry Form and turn it in by **Wednesday, February 26th**.
- ✓ Explore and find the answers to your research questions
- ✓ Write a report using your research findings and a bibliography with at least 3 resources (The report can be written/typed, audio taped, made into a computer game, or any other creative way you can think of to report on your research.)
- ✓ Create an interesting and creative display
