

The Mentor Program is looking for volunteers!

The Mentor Program is a school and community program in which responsible, caring adult volunteers are matched one-on-one with students who need encouragement to succeed in school. Each mentor and student meet once a week at school for approximately 30 minutes. The program is designed to allow the volunteer mentor to choose what age or grade level they feel most comfortable working with.

If you are interested in volunteering as a mentor or have any questions about mentoring, please contact Maureen Mommaerts, School Social Worker at 662-7962.
