**Recess Winter Gear Expectations**

Recently, many students have been coming to school without proper winter gear for recess. This unfortunately causes many students to come into the school wet and cold following their recess time. Please be sure to send the proper outdoor gear for your children including boots, snow pants, hats, mittens, etc. With the continued snowfalls and messy conditions on the playground it is our Bay Harbor expectation that students wear all appropriate winter attire to play at recess.

We want to make sure that students are properly dressed for the elements so they can stay warm and dry. If for some reason students do not have the appropriate winter gear, they will be required to stay on limited portions of the blacktop areas. By having students dress appropriately, it is much easier for lunchroom playground supervisors to monitor student behaviors instead of trying to keep students on blacktop areas. Thank you in advance for your help.
